mentator who has raised a hornet's nest over the part played by sex in America's business world, there has arisen a serious challenge freedom of the There seems no Murrow's that charges are true though how large a part call girls play in business dealings Is being argued furiously.

Murrow has exposed this vice with the help of the people involved - prostitutes, "madams" and a businessman. And unless he had given his word not to name names he gould not have necumulated the material for his broadcast and the world would not be discussing the scandal,

NOW the New York police IN suggest they will consult with the District Attorney to see what steps can be taken to force Murrow to disclose his sources. Courts of justice are entitled to do this if they consider the issue important. But the police are not the courts. And if they are permitted to force newsmen and editors to disclose the sources of any news story that happens to interest them, freedom of the Press will become a mockery.

A free and responsible Press. unrestricted by fear of victimisation from government or public hodies, plays an important part in the democratic way of life. But if the Press falls under a police dictatorship such as is threatened in New York men like Murrow can pack up and go fishing.

Rumours

London, Jan. 22. liament should finish its work on hand towards the middle of April, an authoritative source said today.

This news caused a revival of rumours that the Primo Minister, Mr Macmillan, would call for general elections on May 14 or May 21 (elections being traditionally held on Thursday).

. If he does so, Parliament would close its session a few days before the presentation of the budget at the beginning of April, 3

Official circles, without confirming these reports, pointed out that the way was open for elections if Mr Macmillan so decided.

If not the government could carry on debates on general questions to keep Parliament busy until the summer holidays. -France Presso,

THE LATE MIKEHAWIHORN

Criticised At Home For Driving A Foreign Car But Cheered Abroad As A Champion

London, Jan. 22. Good-looking, fair-haired six feet tall John Michael Hawthorn, the reigning world champion racing driver who was killed in a road accident near here today, was known to racing fans as "Mike".

He was an unknown when he jumped into the headlines of nearly every newspaper when at the Goodwood Easter Monday Meeting in 1952, he beat the great Argentine ace Juan Fangio as well as experienced British drivers like Eric Brandon and Alan Brown.

shireman Leslie Hawthorn, who in.

Moss, was one of the bright young hopes of postwar British motor racing.

The careers of the two, in fact, were strangely parallel, Both were born in 1929, both went to public schools, both had understanding fathers who had known the thrill of the sportand both developed into formidable giants of the race track.

But Hawthorn had more thanhis share of bad luck.

First Taste

His father bought him his motorcycle—a 125cc 2-stroke when he was still—at school. Afterwards he rode a 250cc Triumph to and from his work as an apprentice with an enineering firm in Guildford.

His first taste of motor racing come with that Novices win on a 350cc B.S.A. in 1947 and his first sports car was a miraculous escape in a Ferrari 1934 1100cc Riley 'Ulster Imp." BRAVES STILL FAVOURED CLINCH THE SENIOR DIVISION PENNANT

By "TIME-OUT"

In mid-September 1958 it was my privilege to preview in this column what the 1958/9 softball season held in store for fans and to give you my estimation of the chances of the various teams in the three divisions.

In the Senior league I went on record as saying that there would be no stopping the Braves with South China AA and the Saints having more than a passing interest in the quest for the title.

In the Junior section I boldly picked the PI Dodgers as a "certainty" but warned them to watch out for the Cardinals whereas the Cheyennes were delegated to the ranks of the 'also rans.'

As for the fairer sex I predicted a dull playing season for them and an even duller one for spectators....and I was never more right.

Dave did such a good job of mannging and coaching, also the unexpected I see no reason the Cheyennes and SCAA. There are season's biggest upset over the dark horses in the form of the Cards and if they strike the Diamonds and Comets while the rest of the league is only of nuisance value.

The Cardinals shocked their supporters last week with their totally unexpected defeat at the hands of the U. Let's hope they won't give their fans a double dose of the same medicine for the Overseas are a greatly improved team. With pennant hopes greatly dimmed the Cards will have to take this game very sericusly.

At 11.00 a.m. on Sunday "Goose" Wong and the South China team come to grips with the US Navy represented by the station ship "Pickaway" in the first of two Senior games. The sailors liven up the game with their banter but chatter alone will not help them and the only doubt I have about the cutcome of this one-sided match is the number of runs South China will score because the Navy team is a very weak batting side. "Goose's" lightning deliveries should tie the sailors up in knots
as the South China sluggers
settle down in carnest to drive in the runs.

'At 2.00 p.m. a "grudge" fight will be seen. Rivalry carried forward from the past two playing seasons in the Junior league should result in a free-hitting Senior game between the Cheyennes and the Seminoles. The former are understandably fed up of playing second fidddle to the Seminoles. Ray Pacheco or Lai Dayaram to start on the mound for the Seminoles? Whichever one it's going to be he hasn't got a very enviable task because the Cheyennes made a very welcome return to hitting form last week when

Canadian Firm Kills Big Aluminium Sale To China

Ottawa, Jan. 22. Mr Gordon Churchill, Canadian Trade Minister, said today that no pressure appeared to have been exerted from outside Canada to kill the sale of one million dollars' worth of Canadian aluminium to China.

In a Commons reply Mr Churchill said that "insofar as I can find out, no pressure was exerted from outside Canada."

He was referring to the refusal of the Aluminium Company of Canada to fill the order to \$2,050. Gulf Oil, Amerada, on grounds that such a sale Socony, Continental rose a might offend steady customers.

THE DECISION

the decision was made at its Montreal headquarters and

A report from Washington last night quoted a United States Trensury official as saying his Department did not act to deter the sale but the report said it was understood that Alcan's parent company: Aluminium Limited, discussed the sale with Tre sury officials several months ago.

Mr Churchill was asked whether he would try to interest his cabinet colleagues in Am. Gas & Electric legislation that would prevent Am. Mach. & F'dry.
